THE IWRM MSC PROGRAMME

The bicultural master program "Integrated Water Resources Management" for German and Arab young professionals educates experts in the field of IWRM who are high on demand for leading positions in the water sector and are able to manage complex projects for international institutions and companies operating in the Arabic region. Participants of the program hold at minimum a bachelor degree and have working experience at an institution or company in the water sector. They may come from a variety of backgrounds relevant to water: engineering, natural sciences, economics, social sciences. The program is supported by the German Academic Exchange Service (DAAD) and conducted on behalf of the Federal Ministry of Economic Cooperation and Development (BMZ).
